

Gift Receipt Request Guide

Harbourlight Marketplace
Document ID: EC-GRR-4417 | Revision: 2026-07-23

Audience	Service staff and authenticated service users
Authority	Harbourlight Marketplace service owner
Record	EC-GRR-4417 controlled publication

Service overview

This commerce service coordinates order, fulfilment, and customer-contact records. Dates are measured against dispatch events, and staff must distinguish a service request from a completed warehouse action.

Answers used by service staff

Service staff use the following answers when responding to routine questions. A gift receipt may be requested until the order enters packing. The receipt omits item price but retains the order reference. A digital gift receipt is delivered through the buyer's OrderDesk case. Gift receipts do not change return eligibility.

Customer journey

1. Open the order before packing begins. 2. Select Gift Receipt and choose digital or printed format. 3. Confirm the recipient name without changing the delivery address. 4. Check the OrderDesk case for completion.

Gift Receipt Request Guide - operational appendix

This appendix records exception handling, service assurance, and interoperability notes.

Questions requiring review

Marketplace sellers may support digital receipts only. Business invoices cannot be converted into gift receipts. A gift message is handled separately.

Record quality and review

The service owner for Gift Receipt Request Guide reviews exceptions against the original case record. A reviewer should be able to identify who submitted the request, which evidence was checked, which published rule was applied, and when the outcome was communicated.
