

Member Statement Request Guide

Alder Ridge Cooperative Bank
Document ID: FS-STR-7708 | Revision: 2026-07-23

Audience	Service staff and authenticated service users
Authority	Alder Ridge Cooperative Bank service owner
Record	FS-STR-7708 controlled publication

About this service

This member service separates customer-visible information from internal reconciliation data. Requests are processed through the authenticated member channel and leave a dated operations record for supervisory review.

Published service facts

The service guide publishes the following facts. Seven years of monthly statements are available in MemberLine. A paper-copy request is dispatched within three business days after identity confirmation. Courier delivery is offered only through the secure-message follow-up process. Internal reconciliation keys are not part of a member statement.

Request journey

1. Sign in to MemberLine and open Statements and Documents. 2. Select the account, statement month, and delivery format. 3. Confirm the postal address when a paper copy is requested. 4. Track dispatch through the member service case.

Member Statement Request Guide - operational appendix

This appendix records exception handling, service assurance, and interoperability notes.

Important exceptions

Statements older than seven years require an archive assessment. Joint-account access follows the account mandate. Operations identifiers are restricted to bank staff.

Record quality and review

The service owner for Member Statement Request Guide reviews exceptions against the original case record. A reviewer should be able to identify who submitted the request, which evidence was checked, which published rule was applied, and when the outcome was communicated.
