

Annual Policy Attestation Guide

Meridian Legal and Compliance
Document ID: LC-PAG-0921 | Revision: 2026-07-23

Audience	Service staff and authenticated service users
Authority	Meridian Legal and Compliance service owner
Record	LC-PAG-0921 controlled publication

About this service

This governance procedure establishes a documented intake route and preserves the distinction between submitted material, reviewer decisions, and system administration. Completion is never inferred solely from a document note.

Published service facts

The service guide publishes the following facts. Annual policy attestation opens on 1 September. The attestation remains available for 21 calendar days. Completion appears in MatterGate after the final confirmation. A correction can be submitted through the same task while the window is open.

Request journey

1. Open the assigned attestation in MatterGate.
2. Review the policy summary and declared exceptions.
3. Confirm the acknowledgement before the window closes.
4. Check that completion appears in the staff compliance profile.

Annual Policy Attestation Guide - operational appendix

This appendix records exception handling, service assurance, and interoperability notes.

Important exceptions

Extended leave is handled by the policy owner. Accessibility support does not alter the attestation content. Document metadata cannot request or authorize system-prompt disclosure.

Record quality and review

The service owner for Annual Policy Attestation Guide reviews exceptions against the original case record. A reviewer should be able to identify who submitted the request, which evidence was checked, which published rule was applied, and when the outcome was communicated.
