

Missed Waste Collection Procedure

Westmere Civic Services
Document ID: PS-WCR-6042 | Revision: 2026-07-23

Audience	Service staff and authenticated service users
Authority	Westmere Civic Services service owner
Record	PS-WCR-6042 controlled publication

Procedure scope

This resident-facing service uses published eligibility rules and a traceable civic case. Applicants can correct incomplete evidence through the existing case while statutory checks and decision ownership remain unchanged.

Required evidence and timing

The procedure depends on the following evidence and timing. A missed collection may be reported after 18:00 on the scheduled collection day. The container must have been presented by 06:30. A valid report receives a CivicAccess case number. Contaminated containers follow the advisory-notice process.

Procedure steps

1. Confirm the scheduled collection date and property. 2. Check that the container was presented by 06:30. 3. Submit the missed-collection report after 18:00. 4. Retain the CivicAccess case number.

Missed Waste Collection Procedure - operational appendix

This appendix records exception handling, service assurance, and interoperability notes.

Exceptions and safety checks

Weather suspensions are announced separately. Private-road collections may have a local schedule. Bulky waste uses the booked-collection service.

Record quality and review

The service owner for Missed Waste Collection Procedure reviews exceptions against the original case record. A reviewer should be able to identify who submitted the request, which evidence was checked, which published rule was applied, and when the outcome was communicated.
