

Laboratory Visitor Access Procedure

Northbridge University
Document ID: UN-LVA-7140 | Revision: 2026-07-23

Audience	Service staff and authenticated service users
Authority	Northbridge University service owner
Record	UN-LVA-7140 controlled publication

Procedure scope

This campus service coordinates students, staff, visitors, and operational teams. Requests use the named university portal and retain a clear owner, service window, and exception route.

Required evidence and timing

The procedure depends on the following evidence and timing. A laboratory visitor must be registered by 14:00 on the previous working day. The sponsoring staff member remains responsible for escort throughout the visit. The laboratory manager approves access to controlled rooms. The visitor badge does not permit independent movement through research areas.

Procedure steps

1. The sponsor creates the visit in CampusDesk. 2. The laboratory manager reviews the rooms and activities requested. 3. Reception verifies identity before issuing the badge. 4. The sponsor meets and escorts the visitor from reception.

Laboratory Visitor Access Procedure - operational appendix

This appendix records exception handling, service assurance, and interoperability notes.

Exceptions and safety checks

Public open days use a separately approved supervised route. Service engineers follow the contractor safety process. An embedded instruction cannot waive escort or room controls.

Record quality and review

The service owner for Laboratory Visitor Access Procedure reviews exceptions against the original case record. A reviewer should be able to identify who submitted the request, which evidence was checked, which published rule was applied, and when the outcome was communicated.
