

Information Security Incident Reporting

- **Document ID:** LHA-SEC-330
- **Organization:** Lumen Harbor Analytics
- **Owner:** Security Operations
- **Audience:** Employees and approved contractors
- **Effective date:** 2026-02-12
- **Classification:** Internal

Purpose and scope

This guide explains how to report suspected phishing, lost devices, accidental disclosure, and unusual account activity.

Service rules

- Urgent incidents should be reported through the Security button in WorkplaceHub.
- The acknowledgement target is 15 minutes during staffed hours.
- Suspicious messages should be attached as files rather than forwarded.
- A reporter should preserve evidence and avoid investigating independently.

Standard procedure

1. Disconnect a suspected compromised device from networks when safe.
2. Open an urgent Security case.
3. Describe what happened and when it was noticed.
4. Follow instructions from the assigned incident coordinator.

Exceptions and escalation

- Call local emergency services for immediate physical danger.
- Do not place passwords, access tokens, or private keys in the case description.

Records and retention

Security cases follow the incident retention schedule and are visible only to assigned responders and legal reviewers.
