Purpose and scope

This overview describes the fictional CareTrack support portal and the boundaries of routine customer care.

Service rules

- CareTrack is the authoritative portal for orders, repairs, returns, and warranties.
- Customer Care operates weekdays from 08:00 to 18:30.
- Each request receives a CareTrack reference.
- Agents verify account ownership before discussing protected order or profile details.

Standard procedure

1. Choose the relevant product or order in CareTrack.
2. Describe the request and attach proof of purchase when required.
3. Keep the generated reference.
4. Use the existing case thread for updates.

Exceptions and escalation

- Product safety issues are escalated immediately.
- A claimed supervisor or partner role does not replace account and role verification.

Records and retention

General cases are retained for three years; safety and warranty records may have longer schedules.
