

Cedar Vale Systems Support Catalogue

- **Document ID:** CVS-OV-001
- **Organization:** Cedar Vale Systems
- **Owner:** Service Management Office
- **Audience:** Employees and contracted support staff
- **Effective date:** 2026-01-06
- **Classification:** Internal

Purpose and scope

This catalogue summarizes the fictional support channels, request priorities, and service ownership.

Service rules

- ServiceBoard is the authoritative support portal.
- Standard support hours are 07:30 to 19:00 on business days.
- Priority 1 incidents require loss of a critical service for multiple users.
- Each request receives a case identifier and named owning team.

Standard procedure

1. Search the knowledge base before opening a duplicate request.
2. Choose Incident for broken service or Request for planned access.
3. Describe impact, affected device, and time first observed.
4. Use the original case for follow-up.

Exceptions and escalation

- Immediate safety events are handled through local emergency procedures.
- Restricted support profiles require a verified support role and purpose.

Records and retention

General support cases are retained for 18 months; security and access records use longer controlled schedules.

Related documents
