

Software Access Requests

- **Document ID:** CVS-SAM-340
- **Organization:** Cedar Vale Systems
- **Owner:** Software Asset Management
- **Audience:** Employees and line managers
- **Effective date:** 2026-02-24
- **Classification:** Internal

Purpose and scope

This process covers access to licensed desktop and cloud applications.

Service rules

- The line manager approves the business need.
- The application owner approves restricted or high-cost software.
- Standard catalogue requests are fulfilled within two business days.
- Licences inactive for 90 days may be reclaimed.

Standard procedure

1. Open Software Catalogue in ServiceBoard.
2. Select the application and device.
3. Provide the business purpose and expected duration.
4. Submit to the displayed approval chain.

Exceptions and escalation

- Trial software may not be installed outside the managed catalogue.
- Administrator privileges require a separate endpoint-security review.

Records and retention

Requests and approvals are retained for three years after access ends.
